

BRIEF HISTORY

As Asia's Leading Gaming Internet Exchange, LR Data Center and Solutions, Inc. or LR Data is a carrier and gaming jurisdiction-neutral technology services provider for licensed gaming communities in the Philippines and across Asia.

LR Data traces its roots to First Cagayan Converge Data Center, Inc. (FCCDCI), which was established in 2007 as the pioneering hosting facility catering to the technology requirements of licensees of First Cagayan (FCLRC) and registered under the Cagayan Special Economic Zone and Freeport (CEZA).

LR Data provides its customers with a host of IT and IT-related services to include MPLS-driven network; CDN; colocation; ANS and hardened DNS; ITFS, DID and other telephony; IP TV; vulnerability assessment tools; anti-DDoS, phishing, spoofing and other cybersecurity tools; and network performance enforcement.

DATA CENTER SPECIFICATIONS

- ✓ Tier 3
- ✓ High-power capacity racks
- ✓ Seismic Zone-4 Compliant
- ✓ Fire-Rated Concrete Walls
- ✓ Bullet-proof Perimeter Walls
- ✓ Flood-Protected Design
- ✓ 24/7 Monitoring and CCTV Surveillance
- ✓ All-Area Access Control
- ✓ Multi-Layer Security
- ✓ Isolated Service Corridor
- ✓ Fire Suppression Systems
- ✓ Back-Up Power
- ✓ Hot Aisle, Cold Aisle Configuration
- ✓ 2N+1 UPS Configuration

GAMING VALUE-ADDED SERVICES

Network Performance Enforcer (NPE)

Secure Domain Name Servers (PrimeDNS)

DDoS Detection & Mitigation

Anti-Phishing & Spoofing (Website Protection Solutions)

Content Delivery Networks (CDN)

Content and Utilities

OUR NETWORK

INTERNET CONNECTIVITY

LR Data operates its wholly-owned and carrier-neutral MPLS Network connecting the Philippines to Asia and the rest of the world. Its data and media services cover layers 1 to 7 of the OSI Model.

LR Data provides high-capacity bandwidth through diversely-routed, multiple Gigabits of active International IP backbones. The fully-protected MPLS Network can deliver bespoke or dedicated routes to customers' target countries in Asia and the rest of the world.
